## WHAT IS CLAIMED IS:

- 1. A paint substitute film comprising a color coat in which metallic pigments are dispersed, wherein the color coat includes orientation inhibitors for inhibiting orientation of the metallic pigments.
- 2. A paint substitute film according to claim 1, wherein the orientation inhibitors are made of at least one kind of materials selected from the group consisting of a glass bead, a glass powder and an extender.

3. A paint substitute film according to claim 1, wherein the orientation inhibitors have an average particle diameter of 1 µm to 30 µm inclusive.
